

The Ultimate Pumping Solution...

SEWAGE / DEWATERING SUBMERSIBLE PUMPSET

APPLICATION:

- Water with suspended solids
- Raw Sewage
- Effluents
- Rain Storm Water
- Bidge

USERS:

- Steel, Cement & Textile Industries.
- Hotels, Hospitals, Malls and Theater.
- Civil Contractors.
- Marble & Ceramic Industries
- Power Stations.

TECHNICAL SPECIFICATIONS:

- Capacity: Upto 2500 LPM
- Head: Upto 28 mtr.
- H.P. / R.P.M.: 0.5 to 10 / 2900
- Solid Handling Size: Upto 45 mm
- M.O.C.: S.S. / C.I.
- Mechanical Seal: Double Mechanical Seal
- Over Load Protection:
 - 1) Single Phase - Upto 2 HP with T.O.P. (Thermal Overload Protection)
 - 2) Three Phase - 3 HP and above with thermistor.

Pumpset can be supplied with various type of impeller like Vortex type, Semi open single or double vane, Drainage type, Impeller with cutter or agitator as per requirement.

S.S. CENTRIFUGAL PUMPS

APPLICATION:

- Food Processing
- Acid, Alkaline Solutions, Alcoholic Drinks
- Hot and Cold Water Pumping
- Chemical Solutions Transfer
- Water Treatment

USERS:

- Chemical & Pharmaceuticals Industries
- Food, Textile, Paper & Cement Industries
- Dairy
- R.O. Plant

TECHNICAL SPECIFICATIONS:

- Capacity: Upto 3500 LPM
- Head: Upto 100 mtrs.
- H.P. / R.P.M.: 0.5 to 40 H.P. / 1450 or 2900
- M.O.C. : All Liquid Contact parts in S.S. 316/S.S. 304 (made from S.S. Sheet)
- Seal: Mechanical Seal

MONO / BARE PUMPS is also available.
